# Review report on condensed consolidated interim financial statements to the board of directors of Sharjah Islamic Bank PJSC

## Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Sharjah Islamic Bank PJSC (the “Bank”) and its subsidiaries (the “Group”) as at 31 March 2023 and the related condensed consolidated interim statements of profit or loss, comprehensive income, cash flows and changes in equity for the three-month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with International Accounting Standard 34 – Interim Financial Reporting (“IAS 34”). Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

## Scope of our review

We conducted our review in accordance with the International Standards on Review Engagements 2410 “Review of interim financial information performed by the independent auditor of the entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial statements are not prepared, in all material respects, in accordance with IAS 34.

## SHARJAH ISLAMIC BANK PJSC

### NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTH PERIOD ENDED 31 MARCH 2023

(Currency: Thousands of U.A.E Dirhams)

#### 1. Legal status and activities

SHARJAH ISLAMIC BANK PJSC (the "Bank") was incorporated in 1975 as a public joint stock company by Emiri Decree issued by His Highness the Ruler of Sharjah, United Arab Emirates ("UAE") and is listed on the Abu Dhabi Securities Exchange. The Bank is engaged in banking, financing and investing activities in accordance with its articles of incorporation, Islamic Shari'a principles and regulations of Central Bank of the UAE ("CBUAE"), which are carried out through its 34 branches (2022: 34 branches) established in the UAE.

At an extraordinary shareholder's meeting held on 18 March 2001, a resolution was passed to transform the Bank's activities to be in full compliance with Islamic Shari'a rules and principles. The entire process was completed on 30 June 2002 ("the transformation date"). As a result the Bank transformed its conventional banking products into Islamic banking products during the six month period ended 30 June 2002 after negotiation and agreement with its customers.

The condensed consolidated interim financial statements of the Group comprise the Bank and its fully owned subsidiaries incorporated in the UAE, Sharjah National Hotels (SNH), Sharjah Islamic Financial Services LLC (SIFS) and ASAS Real Estate as well as special purpose vehicles established in the Cayman Islands, SIB Sukuk Company III Limited and SIB Tier 1 Sukuk Company Limited, (all together referred to as "the Group"). SNH through its divisions is engaged in operating hotels and resorts, catering and related services, whereas SIFS is involved in conducting intermediation in dealing in local market Shari'a compliant shares. ASAS is involved in the business of real estate. SIB Sukuk Company III Limited and SIB Tier 1 Sukuk Company Limited were established for the Bank's Sukuk program.

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses ( the "Law") to enact a Federal corporate tax regime in the UAE. Furthermore, on 16 January 2023, a Cabinet Decision was published specifying the threshold of AED 375,000 of taxable income above which taxable entities would be subject to a 9% corporate tax rate.

The Corporate Tax regime will become effective for the accounting periods beginning on or after 1 June 2023 hence for the Group it will be effective from 1 January 2024. Management acknowledges that a number of regulations with regards to the application of tax legislation are yet to be published and as such management will continue to monitor developments in order to assess the impact of corporate tax including any deferred tax on the Group.

The UAE Federal Decree Law No. 32 of 2021 ("Companies Law") which was issued on 20 September 2021 and came into effect on 2 January 2022, The Bank had 12 months from 2 January 2022 to comply with its provisions. The changes in the law have duly been reflected in articles and memorandum of the Bank and is in the process of regulatory approvals.

The registered office of the Bank is Post Box No.4, Sharjah, UAE.

**2. Basis of preparation****a) Statement of compliance**

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting. Selected explanatory notes, are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the last annual consolidated financial statements as at and for the year ended 31 December 2022. These condensed consolidated interim financial statements do not include all of the information required for a full set of annual consolidated financial statements and should be read in conjunction with the annual consolidated financial statements of the Group as at and for the year ended 31 December 2022.

**b) Basis of measurement**

The condensed consolidated interim financial statements have been prepared on a historical cost basis except for, provision for employees' end of service benefits which is measured using the projected credit unit method under IAS 19, and the following material items in the condensed consolidated interim statement of financial position which are measured at fair value:

- I financial assets at fair value through profit or loss (FVTPL);
- II financial assets at fair value through other comprehensive income (FVTOCI); and
- III investment properties at fair value.

**c) Functional and reporting currency**

These condensed consolidated interim financial statements have been prepared in UAE Dirhams (AED), which is the functional and presentation currency of each entity in the Group. All information presented in AED has been rounded to the nearest thousands, except when otherwise stated.

**3. Significant accounting policies**

The accounting policies applied by the Group in preparation of these condensed consolidated interim financial statements are consistent with those applied by the Group in its annual consolidated financial statements as at and for the year ended 31 December 2022.

**New and revised IFRS adopted in the condensed consolidated interim financial statements**

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2023, have been adopted in these condensed consolidated interim financial statements. The application of these revised IFRSs, except where stated, have not had any material impact on the amounts reported for the current and prior periods.

**New standards and significant amendments to standards applicable to the Group****Effective date****Disclosure of Accounting Policies – Amendments to IAS 1 and IFRS Practice Statement 2**

The IASB amended IAS 1 to require entities to disclose their material rather than their significant accounting policies. The amendments define what is 'material accounting policy'. To support this amendment, the IASB also amended IFRS Practice Statement 2 Making Materiality Judgements to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

**3. Significant accounting policies (continued)****New and revised IFRS adopted in the condensed consolidated interim financial statements (continued)**

<b>New standards and significant amendments to standards applicable to the Group (continued)</b>	<b>Effective date</b>
--	-----------------------

**Definition of Accounting Estimates – Amendments to IAS 8**

The amendment to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors clarifies how companies should distinguish changes in accounting policies from changes in accounting estimates. The distinction is important, because changes in accounting estimates are applied prospectively to future transactions and other future events, whereas changes in accounting policies are generally applied retrospectively to past transactions and other past events as well as the current period.

1 January 2023

**Deferred tax related to assets and liabilities arising from a single transaction –  
Amendments to IAS 12**

The amendments to IAS 12 Income Taxes require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. They will typically apply to transactions such as leases of lessees and decommissioning obligations and will require the recognition of additional deferred tax assets and liabilities.

1 January  
2023

The amendment should be applied to transactions that occur on or after the beginning of the earliest comparative period presented. In addition, entities should recognise deferred tax assets (to the extent that it is probable that they can be utilised) and deferred tax liabilities at the beginning of the earliest comparative period for all deductible and taxable temporary differences associated with:

- right-of-use assets and lease liabilities, and
- decommissioning, restoration and similar liabilities, and the corresponding amounts recognised as part of the cost of the related assets.

The cumulative effect of recognising these adjustments is recognised in retained earnings, or another component of equity, as appropriate. IAS 12 did not previously address how to account for the tax effects of on-balance sheet leases and similar transactions and various approaches were considered acceptable. Some entities may have already accounted for such transactions consistent with the new requirements. These entities will not be affected by the amendments.

<b>IFRS 17 – Insurance contracts</b>	1 January 2023
--------------------------------------	----------------

On 18 May 2017, the IASB finished its long-standing project to develop an accounting standard on insurance contracts and published IFRS 17 “Insurance Contracts”. IFRS 17 replaces IFRS 4, which currently permits a wide variety of practices. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

IFRS 17 requires a current measurement model, where estimates are remeasured in each reporting period. The measurement is based on the building blocks of discounted, probability-weighted cash flows, a risk adjustment and a contractual service margin (“CSM”) representing the unearned profit of the contract. A simplified premium allocation approach is permitted for the liability for the remaining coverage if it provides a measurement that is not materially different from the general model or if the coverage period is one year or less. However, claims incurred will need to be measured based on the building blocks of discounted, risk-adjusted, probability weighted cash flows

**Narrow scope amendments to IAS 1, Practice statement 2**

The IASB amended IAS 1 to require entities to disclose their material rather than their significant accounting policies. The amendments define what is ‘material accounting policy information’ and explain how to identify when accounting policy information is material. They further clarify that immaterial accounting policy information does not need to be disclosed. If it is disclosed, it should not obscure material accounting information. To support this amendment, the IASB also amended IFRS Practice Statement 2 Making Materiality Judgements to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

**3. Significant accounting policies (continued)****New and revised IFRS in issue but not yet effective and not early adopted**

<b>New standards and significant amendments to standards not yet applicable to the Group</b>	<b>Effective date</b>
<p><b>Amendments to IAS 1, Presentation of financial statements on classification of liabilities</b></p> <p>The narrow-scope amendments to IAS 1 ‘Presentation of Financial Statements’ clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (e.g.the receipt of a waiver or a breach of covenant). The amendments also clarify what IAS 1 means when it refers to the ‘settlement’ of a liability. The amendments could affect the classification of liabilities, particularly for entities that previously considered management’s intentions to determine classification and for some liabilities that can be converted into equity. They must be applied retrospectively in accordance with the normal requirements in IAS 8 ‘Accounting Policies, Changes in Accounting Estimates and Errors’.</p> <p>In June 2021, the IASB issued an Exposure Draft proposing to defer the effective date of the amendments to 1 January 2024.</p>	Deferred until accounting periods starting not earlier than 1 January 2024
<p><b>Amendment to IFRS 16 – Leases on sale and leaseback</b></p> <p>These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.</p>	1 January 2024
<p><b>Amendment to IAS 1 – Non-current liabilities with covenants</b></p> <p>These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability.</p> <p>The Group is currently assessing the impact of these standards, interpretations and amendments on the future financial statements and intends to adopt these, if applicable, when they become effective.</p>	1 January 2024

**4. Key accounting estimates and judgments**

The preparation of condensed consolidated interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, significant judgement is exercised by management in applying the Group's accounting policies. The key sources of estimation uncertainty are consistent with the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2022.

**i) Use of estimates and judgements**

The IFRS 9 Committee has reviewed the inputs and assumptions for IFRS 9 ECL measurement in light of available information. The Bank, being prudent, has computed ECL using 20% weightage to the upward scenario as of 31 March 2023. Had adverse scenario been stressed by another 10% with corresponding impact on upward scenario, impairment loss allowance would be impacted by AED 10.6 million.

Following both regulatory mandates and industry standards, TTC PDs are adjusted based on internal rating grades that reflect historical default rates.

The bank has integrated LGD models for its various portfolios, such as non-retail secured, non-retail unsecured, consumer home financing and Islamic financing for individuals. These models are based on the actual recovery rates as observed over the period of last five years.

The Bank considers a range of possible outcomes and their respective probabilities, and to apply judgement in determining what constitutes reasonable and forward looking information. The most significant period-end assumptions used for ECL estimate includes next 5-year average oil price ranging between US\$ 52.65/barrel to US\$ 89.83/barrel, equity price index growth volatility ranging between -15% to 4.7%, non-oil UAE GDP range falling 4.8% to rising 4.6% and UAE CPI index ranging 1.6% to 2.3%.

Management will continually monitor how the economic conditions change over the next reporting period and will re-evaluate the adequacy of downside weight, and adverse effect, if any, will be accounted for.

**5. Financial risk management**

The Group's financial risk management objectives, policies and procedures are consistent with those disclosed in the annual consolidated financial statements as at and for the year ended 31 December 2022.

**i) Liquidity risk management**

On 17th April 2023, the Bank shall make a repayment for SIB sukuk 2023 upon its normal maturity, amounting AED 1.8 billion. SIB Sukuk 2023 was issued on 18 April 2018 and bears a profit rate of 4.23% per annum. The Bank has enough liquidity to settle the sukuk from own sources.

**5. Financial risk management (continued)****LIBOR transition progress**

In line with the disclosures in the financial statements for the year ended 31 December 2022, the Group's transition program has commenced and the Group is preparing for the transition to Alternative Reference Rate (ARR). For this, the management has formed a cross functional working committee and the program has been running under the supervision of the committee, which includes representatives from Treasury, Risk management, Financial control, Information technology and other related business units. The transition program will be completed until the final publication date of LIBOR on 30 June 2023.

The Bank has LIBOR based repo borrowings amounting to AED 1,111.2 million as of 31 March 2023 (31 December 2022 AED 862.8 million).

**ii) Fair value measurement of financial instruments**

The Bank's existing policy on fair value measurement of financial instruments is disclosed in note 3 (b) (v) to the annual audited consolidated financial statements of the Group as at and for the year ended 31 December 2022.

**iii) Capital adequacy initiatives "CAR"**

The Bank expects CAR in the current economic scenario to remain well above the UAE banking sector average and the baseline CBUAE BASEL III requirement of 13% including capital conservation buffer of 2.5%.

In order to relieve the pressure on financial institutions, the CBUAE, vide its official paper issued on 22 April 2020, has allowed banks to apply a prudential filter to IFRS 9 expected loss provisions. The prudential filter aims to minimize the effect of IFRS 9 provisions on regulatory capital, in view of the volatility due to the COVID 19 crisis. The filter will allow Banks to partially add incremental ECL provisions back to their Tier 1 capital for the purpose of calculating capital adequacy ratios. Banks are however required to reverse this capital benefit in a gradual and phased manner over a period of 5 years (ending on 31 December 2024).

**iv) Concentration analysis**

Please refer to note 10.1 (a) and (b) to the condensed consolidated interim financial statements, which discloses the product and sector wise categorization of Investment in Islamic financing as at 31 March 2023.

The Group's financial risk management objectives, policies and procedures are consistent with those disclosed in the annual consolidated financial statements as at and for the year ended 31 December 2022.

**v) Profit rate risk**

The principal risk to which non-trading portfolios are exposed, is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market profit rates. Profit rate risk primarily comprises of market and valuation risk, are managed on the basis of pre-determined asset allocations across various asset categories, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value. Overall pricing or profit rate risk positions are managed by the ALCO. The sensitivity of the condensed consolidated statement of profit or loss is the effect of the assumed changes in profit rates on the net income.

**22. Fair value measurement**

The Group measures fair values using the following fair value hierarchy, which reflects the significance of the inputs used in making the measurements.

Level 1: inputs that are quoted market prices (unadjusted) in active markets for identical instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are

Level 3: inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments for which significant unobservable adjustments or assumptions are required to reflect

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Valuation techniques include net present value and discounted cash flow models, comparison to similar instruments for which market observable prices exist, and other valuation models. Assumptions and inputs used in valuation techniques include risk-free and benchmark profit rates, credit spreads in estimating discount rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices and expected price volatilities and correlations. The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in

The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date.

The Group has an established control framework with respect to the measurement of fair values. This framework includes a valuation function, which is independent of front office management and reports to the Investment Committee, and which has overall responsibility for independently verifying the results of trading and investment operations and all significant fair value measurements.

Specific controls include:

- verification of observable pricing;
- re-performance of model valuations;
- a review and approval process for new models and changes to models involving valuation function;
- calibration and back-testing of models against observed market transactions at regular intervals;
- analysis and investigation of significant valuation movements; and
- review of significant unobservable inputs, valuation adjustments and significant changes to the fair value measurement of Level 3 instruments compared with the previous month, by Investment

Significant valuation issues are reported to the Investment Committee.

Management considers that the carrying amounts of financial assets and financial liabilities, measured at amortised cost, recognised in the condensed consolidated interim financial statements approximate their fair values, other than investments measured at amortised cost for which the fair value is calculated using Level 1

As at 31 March 2023, fair value for investments measured at amortised cost amounts to AED 6,811 million (31 December 2022: AED 4,555 million) against carrying value of AED 6,837 million (31 December 2022: 4,595 million).

There were no transfers of any financial instruments in between any of the levels in fair value hierarchy during the nine month period ended 31 March 2023 or during the year ended 31 December 2022.

The following table shows a reconciliation from the beginning balances to the ending balances for fair value measurements in Level 3 of the hierarchy for investment securities and investment properties:

During the three month period ended 31 March 2023, the Group transferred a property of AED Nil (*year ended 31 December 2022: AED 351.9 million*) from properties held for sale to investment properties. This has no impact on condensed consolidated interim statement of cash flows.

**Unobservable inputs used in measuring fair value**

The investment department constantly monitors the progress of its investments by conducting its own valuation assessment along with information provided by the fund manager. Depending on the nature of the underlying asset, quantitative methods are used such as residual value, DCF / scenario analysis or comparable market valuation. Qualitative methods which involve taking into consideration the market & economic

The carrying amount of the investment properties is the fair value of the properties as determined by an independent appraiser having an appropriate recognised professional qualification and recent experience in the location and category of the property being valued and is reviewed by the Board of Directors on an annual basis. The valuation techniques used for fair valuation of the investment properties were disclosed in the consolidated financial statements for the year ended 31 December 2022.

**The effect of unobservable input on fair value measurement**

Although the Group believes that its estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value. For fair value measurements in Level 3, changing one or more of the assumptions by 10% would have the following effects:

	<b>Effect on profit or loss</b>		<b>Effect on OCI</b>

**23. Interim measurement**

The nature of the Group's business is such that income and expense are incurred in a manner, which is not impacted by any form of seasonality. These condensed consolidated interim financial statements were prepared based upon the accrual concept, which requires income and expenses to be recorded as earned or incurred and not as received or paid throughout the period.

**24. Dividends**

During the annual general meeting of the shareholders held on 26 February 2023, a cash dividend of 10% of the paid up capital, amounting to AED 308.2 million (AED 0.1 per share) and 5% bonus shares amounting AED 154.1 million (1 share for each 20 shares) was approved for the year ended 31 December 2022 (2021: a cash dividend of 8% of the paid up capital, amounting to AED 246.5 million (AED 0.08 per share) was approved for the year ended 31 December 2021).

Total net asset value of the Funds under management as at 31 March 2023 amounts to AED 896.8 million (31 December 2022: AED 1,217 million)

**26. Subsequent events**

There have been no events subsequent to the condensed consolidated interim statement of financial position date that would significantly affect the amounts reported in the condensed consolidated interim financial statements as at and for the nine month period ended 31 March 2023.

**27. Basic and diluted earnings per share**

The calculation of earnings per share is based on for the year attributable to the shareholders as adjusted by profit on Tier 1 sukuk divided by the weighted average number of shares 3,235,677,638 (2021: 3,235,677,638) for all periods presented. The earnings per share for the three month period ended 31 March 2023 has been restated to account for the impact of bonus shares issued during the three month period ended 31 March 2023. There is no dilution impact on basic earnings per share.
